

### **Useful info re clothing!**

Please note that the castle can be slightly chilly. Bear in mind that it is a 12<sup>th</sup> century castle! It does have heating but it doesn't have double-glazing! I would suggest some warmer clothes, or layers just in case.

The staircases and floors are also a little uneven in places, and primarily old wooden floorboards. I would therefore advise sensible flat comfy shoes.

The church where we perform our concert was very cold last year, despite having the heaters on. I would therefore advise you bring warm black concert clothes, jumpers/cardigans etc.
